

The monthly report of October-Oum El Banine

The story of Rghaya

Rghaya is from Guelmim. She is 21 years old and she has two brothers, one sister and she is the oldest daughter in the family. Rghaya is studying in the 2nd year at University. She belongs to a rich family because her father works as an army. She moved to Agadir to continue her studies at university. She gave birth to a male baby after meeting a man who was in a good position. Rghaya was in bad need of this position. He refused to help her unless she makes sex with him. This ends up to pregnancy. As many cases, Rghaya didn't want to keep the baby but now she will. She was oriented to Oum El Banine by a lawyer after giving birth in the hospital with the help of her friends. Now, she is planning to continue her studies and to find a job. We have also reconciled her with her family. But they want her to stay in Agadir with her baby because they want to protect their reputation in their area.

The story of Khadija

Khadija is 30 years old. She has five brothers and she is the oldest daughter. She studied until the 6th year at primary school. She got a diploma in sewing and was working as a sewer. She gave birth to a male who is 38 days now. She loved a guy who promised to marry her but after pregnancy he disappeared. She wanted to put her baby in the hospital until she fixes her situation, but they told her that if she puts her baby in the hospital she will never find him again.
