

The monthly report of December 2016

Oum El Banine

The travel to Marrakech

How wonderful it is to see the open-handedness, generosity and tender traveling to the far villages to help the distressed cases. The cases whose voice is almost mute in society, but the president of Oum El Banine association and her team devoted a part of their time, concern and energy to help them in free. This time the destination is Marrakech, to search for the identity documents of a single mother called Malika who is 23 years old. Unfortunately, the registration of Malika requires a paper which remains with her father. We contacted him to send it to us but he refused. The president then is planning to travel again to the origins of Malika to meet her father to convince him to give us this paper. The second case is Bouchra, the deaf single mother we mentioned in a previous report. After consulting the special doctor in Agadir he oriented us to another expert in Marrakech. We took her and he ordered a medicine for her which she must changes each month and then he can decide if she has to make an operation for her eye. Now, after this first travel, we took her to Marrakech for the fourth time. In the final coming travel we will know if Bouchra can see again with her eye. Each travel requires a certain budget for food, hotel, the fuel...etc. All this has been done with the crones you have sent to us and we hope that you can help us more to complete this humanitarian mission.
