Oum El Banine

The important events

The letter to the king has been delivered

After a long struggle, Mme. Mahjoubia has written a letter to his Majesty Mohamed IV informing him about the disability we are facing to pay the accumulated social charges which exceeds 300 000,00 MAD. After a short period, the National Aid in Agadir called Oum El Banine association following the orders of his majesty. They inform us that our request has been accepted and it's them who that will pay all our debts to the National Fund of Social Security. Moreover, this National Aid suggested a project of partnership with Oum El Banine association. This partnership will solve a lot of problems for Oum El Banine but unfortunately, Oum El Banine does not have the final receipt which has been the stumbling block since 2014 until today. Therefore, the partnership with the National Aid and others is depending to this final receipt. The president confirms that she is waiting for the Audit to be finished to arrange the general assembly. In this later, we will know who is going to take the presidency of Oum El Banine. According to Mme. Mahjoubia Edbouche, if the election of the old president will bring the final receipt to Oum El Banine, she is absolutely ready to quit regarding that the most important is the continuation of Oum El Banine.

The municipality of Agadir has also announced in an assembly that it's Oum El Banine who deserves the new local. All this great news are not official yet, but we keep hope.

The arrival of the container from Sweden

Finally, the big container that was sent by the Swedish association "Karavanen" arrived. The procedure has taken a lot of time even after the arrival of the container to the port of Agadir. The association had to prepare a lot of administratif documents to be signed and approved by the authorities. Thanks to the members of "Karavanen" who supported us all the time with this long procedure. The container is containing a lot of materials such as wheelchairs, beds, washing machine, clothes for different ages and many other things.

The stories of people

An 18 years old girl becomes pregnant by her father

Agadir city has been trembled by an awful crime of an 18 years old girl who was raped by her father for more than one year and the half ends up to pregnancy. With a very sad tone, Zakia and her mother told her story to the press of the region who published it in YouTube. The father has been arrested in waiting for the court to announce its final judgment. According to Zakia, her father went to her each night. The father had no job; it was the mother who was working in a factory. She was letting her daughter with the father, thinking that he was the shelter and the symbol if safety. But he wasn't. An association intervened to help the case but they didn't have enough knowledge about the field. They called Oum El Banine association who took the girl to the women house and make all the analyses for her. Zakia stayed about twenty-five days in the women house and then decided to quit. The president of the association has done all what she can to keep her, but in vain. Now, we heard that Zakia gave birth to the child. The president after her experience with such facts, she suggested to separate this child with his mother. She sees that the first step to help this family is to abandon this child in order to stop increasing the psychological illness that will destroy this family. In law, the mother has all the rights to abandon the child of incest..
